

Compliance Executive Summary

Live tenant compliance-program records. Readiness is not certification or a claim of compliance.

Elite Claims · Report date 2026-09-14 · SR-CMP-20260914 · Generated 2026-09-14 22:56 UTC

Honesty

Readiness and coverage are not certification, attestation, or a claim that this organization is compliant. Not applicable is not pass. Evidence presence is not pass. An attestation is not a control test. An exception does not make a control effective. Residual risk does not change unless Supreme Risk recalculates it.

Framework readiness

FRAMEWORK	MAPPED	IMPLEMENTED	TESTED	EVIDENCE
ISO/IEC 27001 2022-ref	100%	100%	0%	100%
NYDFS cybersecurity requirements 500-ref	100%	0%	No implemented mapped controls to test	0%

Applicable requirements with at least one active mapping ÷ applicable requirements. Not applicable is excluded.

Gaps

GAP	WHAT IS MISSING	SOURCE	STATUS
GAP-00004	A.15 has no current CLEAN evidence	Evidence missing	Open
GAP-00003	A.15 is mapped to controls that are not implemented	Not implemented	Open
GAP-00002	500.07 has no current CLEAN evidence	Evidence missing	Open
GAP-00001	500.07 is mapped to controls that are not implemented	Not implemented	Open

Needs attention

- Overdue attestations: Hosted Q4 control attestation passed its due date without closing.
- Overdue attestations: An assigned attestor has not closed this campaign before the due date.
- Expired exceptions: EXC-00001 reached its end date. An exception does not make the control effective.
- Expired exceptions: EXC-00002 reached its end date. An exception does not make the control effective.
- Expired exceptions: EXC-00003 reached its end date. An exception does not make the control effective.
- Implemented controls that are not tested: TPR-01 is implemented. Not tested is not pass.

organization is compliant. Not applicable is not pass. Evidence presence is not pass. An attestation is not a control test. An exception does not make a control effective. Residual risk does not change unless Supreme Risk recalculates it. Generated 2026-09-14.
